

Phoenix Area Businesses Help The Eloy Robson Ranch Community Outreach Center With Donation of a New Roof!

Local businesses have stepped up to lend a helping hand to the Community Outreach of Robson Ranch, a 501 organization that exists entirely through the contributions and efforts of its volunteers. The Ranch is a positive force in the community helping local children with tutoring, clothing, and self-esteem through its many outreach programs. Because of the wonderful impact the ranch has on the surrounding community, when they reached out for help for a new roof— local businesses volunteered!

The following companies are donating material and labor to install a new roof on the Outreach Center Building this fall:

- Hunter Panels
- Enriquez Roofing
- Pro-Tech Products
- Jim Brown & Sons Roofing
- Division Seven Systems
- 1.5" H-Shield Polyiso Roof insulation
- Tear off of Existing Roof
- Spray Polyurethane Foam
- All the labor to install the roof
- Elastomeric Cool Roof Coating

Its all about the kids....

An investment today broadens their horizons for tomorrow
